About

17+ years of experience in Software Development and User Interface Engineering. Bringing forth expertise in the design, development, and delivery of software systems. Equipped with a diverse and promising skill-set. Proficient in various platforms, and languages. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.

A passionate content creator who wrote over 200 articles on his own blog and many other freelancing engagements like freeCodeCamp, CSS-Tricks, and many more. Always up for knowledge sharing with tips and tricks on Twitter and recently launched YouTube channel. An open-source enthusiast created several projects in the areas of web development to create tools, mentoring resources, and guides.
